

Storage, Packing and Shipping Instructions

Please retain the enclosed bar-coded document with container number and pass code for tracking and documentation.

Electronic Containers

Approved Contents

Computers, monitors, terminals, keyboards, mice, laptops, mainframe components, printers, photocopiers, fax machines, scanners, power supplies, hard drives, televisions, VCR's, radios, microwaves, cell phones, phone systems.

Small Quantity/Consumer Electronic Container

- Assemble electronic container box.
- Tape (it is best to use 3" fiber reinforced tape) and seal the flap edges and corners completely. Do not leave any flap edges or corners exposed. Do not use masking tape.
- Fill with obsolete electronic equipment.

Gaylord Container

- Assemble the multi walled cubic yard container and position on supplied pallet.
- Fill with obsolete electronic equipment.

When Lamp Box is Full / Return Shipping

- Make sure container does not exceed weight limit.
- When container filled, fold flaps of box and seal flap edges and corners completely. Do not use masking tape.
- Complete shipper information on label on box.
- Remember to reorder a replacement container.

Shipping Guidelines

- The container must be properly sealed, structurally sound, compatible with the contents, and must lack evidence of leakage or damage that could cause leakage under reasonably foreseeable conditions.
- The container must only contain its approved contents (i.e., no broken lamps).
- Total container weight must not exceed specified weight.
- Pickup must be from a business address within the continental United States.

If the carrier does not accept the container, contact us at 1-877-WorkWaste for further instructions or visit us at www.myworkwaste.com.
